

Does the client have (existing) or need (new) a manual wheelchair or a power wheelchair with a sling/solid seat/back and did (existing) or do (new) they meet Medicare coverage criteria?

**NO**

**They do not qualify for seating and positioning products.**

**YES**

**Continue below to determine coverage criteria.**

Does the client have either of the following (A or B):

Current pressure ulcer or past history of a pressure ulcer on the area of contact with the seating surface as reflected in a pressure ulcer diagnosis code from the Group 1 Diagnosis Codes ; OR

Absent or impaired sensation in the area of contact with the seating surface or inability to carry out a functional weight shift due to a specific covered Group 2 diagnosis code.

**Skin Protection Cushion (E2603, E2604, E2622, E2623)**

Does the client have any significant postural asymmetries that are due to one of the Group 2 or Group 3 Diagnosis codes?

**Positioning Seat Cushion (E2605, E2606) or Positioning Back Cushion (E2613-E2616, E2620, E2621) and Positioning Accessories (E0953, E0955, E0956, E0957, E0960)**

Does the client have a need for both skin protection and positioning?

The client must meet the criteria for both a skin protection seat cushion and a positioning seat cushion.

**Combination Skin Protection and Positioning and Adjustable Skin Protection and Positioning (E2607, E2608, E2624, E2625)**

Does the client need more support or positioning than an off-the-shelf product can provide?

Does the client meet all coverage criteria for a prefabricated skin protection cushion OR positioning seat cushion and/or meet all criteria for a prefab positioning back cushion?

Is there a comprehensive written eval by a LCMP, which clearly explains why a prefabricated seating system is not sufficient to meet the beneficiary's seating and positioning needs and the LCMP has no financial relationship with the Supplier?

**Custom Fabricated Back (E2617) or Custom Fabricated Seat Cushion (E2609)**

\*The presence of an ICD-10 code from the Diagnosis List is required for Seating and Positioning products (except for General Use), however, the diagnosis code is NOT sufficient by itself to assure coverage. Clinical Documentation from the clinical team must support the diagnosis code.
