

The Safety Sleeper

Fully Enclosed Bed System for Daily and Travel Use

Peace of Mind at Home, and Away

The Safety Sleeper from Abram's Nation is a safe, fully enclosed bed system for children and adults with special needs. It prevents unattended wandering and reduces visual stimulation - while supporting healthy sleep habits. The Safety Sleeper is great for daily use at home, and when traveling.

- 4 different models - Standard, Deluxe, Professional and Premium
- Fully customized options to fit specific needs
- Fits twin and full size mattresses
- Spacious enough for an adult
- Fits in any size room
- Quick and easy to set up
- Easy to assemble with no tools needed
- Machine washable
- 5 color options - Sail Blue, Hot Pink, Heather Gray, Royal Purple and Navy Blue

Portable and Easy to Transport

The Safety Sleeper provides familiarity and comfort when away from home traveling for vacation, respite care or hospital stays.

- Hard shell wheeled suitcase and air mattress included
- Weighs less than 37 lbs.

Some of the diagnoses that benefit from the Safety Sleeper include:

- Alzheimer's Disease
- Angelman Syndrome
- Autism
- Brain Injury
- Cerebral Palsy
- Dementia
- Down Syndrome
- Epilepsy
- Genetic Disorders
- Mitochondrial Disease
- Sleepwalking
- Smith Magenis Syndrome (SMS)

Safety Sleeper Model Options

Twin or full sizes available in all models

- * All entries come with zipper access and locking system
- ** Additional coverlets sold separately
- *** Not covered under warranty

		Standard	Deluxe	Professional	Premium
	ONE STANDARD SIDE ENTRY WITH LOCKING SYSTEM: Picture shows the standard entry option of The Safety Sleeper™ with the door fully opened. *	✓	✓		
	CONVERTIBLE SIDE ENTRY WITH TWO ZIPPER ACCESS AND LOCKING SYSTEM ON BOTH SIDES: This model gives the most access options for the caregiver and allows for access on both sides and above the bed. *			✓	✓
	END OF BED ENTRY: Additional entry at the foot of the bed allows for a second access point. The side entry is installed to the left when facing the end of bed entry. *		✓		✓
	ADDITIONAL COVERLET: All models come with one coverlet zip on sheet. Models with an additional coverlet ensure easy transitions between washes. ** Waterproof mattress pads are also available for purchase as the coverlets are not waterproof.	✓	✓	✓	✓
	FRAME PADS: (Bar cushions) cover the top and sides of the aluminum frame and add additional safety and comfort to your bed. Recommended for seizure diagnoses or self-harming behaviors.	✓	✓	✓	✓
	STABILIZING STRAPS: Straps keep bed from tipping or moving, recommended for older children, adults or to counteract rambunctious activity. PLEASE NOTE, Stabilizing straps need to be attached to your traditional bed frame or box spring.	✓	✓	✓	✓
	ACCESS POINTS: 1-1/8" ID metal grommets installed on left and right sides of the enclosure to serve as access points for use with feeding tubes, oxygen tubing, pulse-ox sensors, etc. Two on each side, four total.		✓	✓	✓
	ATTACHMENT LOOPS: The six loop attachments are installed on the roof of the enclosure to be used for items intended for hanging.				✓
	INSIDE POCKET: 8" X 10" in size and made from black mesh fabric, the pocket can be used for storing communication devices, toys, eye glasses or other items.				✓
	AIR MATTRESS FOR TRAVELING: Comes with built-in electric pump for US & Canada and battery pump for other international sizes.***	✓	✓	✓	✓
	TRAVEL CASE: Our beds weigh less than 38 lbs / 17 kg and come with a durable travel suitcase.***	✓	✓	✓	✓
